Notes on knitting lace from charts:

- The chart represents what the right side surface of the lace will look like. If you are working a wrong side row, keep this in mind.
- The chart is for one repeat of the stitches between the markers.
- Right side rows are worked from right to left across the chart.
- Wrong side rows are worked from left to right across the chart.
- Lace benefits greatly from blocking with a good dose of steam. Pin edges down if necessary. Leave the piece to dry flat if possible.
